+ = present  
 - = not present  
 ? = presence unknown

## 13. Disclaimer

This product is in compliance with the Dutch Food Law, the EU food law and FDA regulations. In accordance with EC 1829/2003 this product has not been knowingly or intentionally produced with genetic engineering and has not been knowingly or intentionally commingled with food that might have been produced with genetic engineering at any time.

This product is not been knowingly or intentionally exposed to radiation.

Trabocca warrants that: any food delivered hereunder, and all components thereof, including packaging are not adulterated or misbranded, within the meaning of the Federal Food, Drug, and Cosmetic Act and all its subsequent amendments (FDCA) as well as applicable state and local laws; that no Goods under any provisions of the foregoing may be introduced into commerce under Sections 4-4 or 405 of the FDCA that contain banned or misbranded hazardous substances.

The product shall be in accordance with the requirements of EC Regulations 852/2004 on the hygiene of foodstuffs as well as the "Code of Practice: Enhancement of coffee quality through prevention of mould formation 2002" as amended for the European Coffee Co-operation.

The packaging used for this product is food grade according to the requirements of EC 1935/2004 and the FDA regulations code 21 CFR and therefore suitable for direct contact with products for human consumption.

Trabocca cannot guarantee full absence of allergens. The allergen information in our specification acts as a reference and is not legally binding. It is the responsibility of the customer to investigate whether or not the product complies with the food regulations in the country where the end products will be sold.

This product has not been processed to control microbial pathogens, or the physical and chemical hazards that might be present, and have to be controlled prior to consumption, as required by FSMA, under 21 CFR 1.507 of the FSVP regulations.

It is the customer's responsibility to establish own controls to significantly minimize or prevent identified hazards as deemed necessary in the customer's hazard analysis.

Intended use:  
Roasting or soluble coffee manufacturing

Unintended use:  
Direct consumption, without roasting, grinding, brewing and filtering
